1. SIGNIFICANT ACCOUNTING POLICIES**I. NATURE OF OPERATIONS**

Mansar Properties Private Limited (The Company) was incorporated in 2007. The company's main business is development of Real Estate Projects.

II. BASIS OF PREPARATION

The financial statements have been prepared under historical cost convention on an accrual basis in accordance with the requirements of Schedule III and mandatory Accounting Standards prescribed in Section 133 of the Companies Act, 2013 ("the Act") read with the Rule 7 of the Companies (Accounts) Rules, 2014 and the provisions of the Act to the extent notified.

All assets and liabilities have been classified as current or non-current, wherever applicable as per the operating cycle of the Company as per the guidance as set out in the Schedule III to the Companies Act, 2013.

III. PROJECT IN PROGRESS

Project in progress disclosed as at reporting date in respect of real estate development and related activities includes aggregate amount of costs and recognized profit (less recognized losses) up to the reporting date less advances received from customers

Costs generally include cost of land, land development rights, construction costs, job work, allocated borrowing costs and other costs that are attributable to project and such other costs as are specifically chargeable to the customer.

IV. TAXES ON INCOME

Tax expense comprises both current and deferred tax.

Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates and tax laws that are enacted or substantially enacted.

Deferred tax is recognized on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets, subject to consideration of prudence, are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. The tax effect is calculated on the accumulated timing difference at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

V. INVENTORIES

- a) The cost of inventories should comprise all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Inventories are valued at cost or net realizable value, whichever is lower on the basis of first in first out method.
- b) Finished stock of completed real estate projects, land and land development rights are valued at lower of cost or net realizable value on the basis of actual identified units.

VI. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognized in respect of liabilities which can be measured only by using a substantial degree of estimates when:

- a) the company has a present obligation as a result of a past event;
- b) a probable outflow of resources embodying economic benefits will be required to settle the obligation; and
- c) the amount of the obligation can be reliably estimated.

Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in the case of:

- a) a present obligation arising from a past event, when it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
- b) a possible obligation, that arises out of past events and the existence of which will be confirmed only by one or more uncertain future events unless the probability of outflow of resources is remote.

Contingent assets are neither recognized nor disclosed. However, when realization of income is virtually certain, related asset is recognized.

VII. CASH & CASH EQUIVALENT

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less. Cash flow statement is prepared using the indirect method.

VIII. EARNING PER SHARE

Basic earning per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average numbers of equity shares outstanding during the period are adjusted for events of bonus issue, a share split and share warrants conversion.

Diluted earnings per share is calculated by adjusting net profit or loss for the period attributable to equity shareholders and the weighted number of shares outstanding during the period for the effect of all dilutive potential equity shares.
