Whereas pursuant to the sale of the residential flats / units by the Company to its homebuyers, which inter-alia included the flats / units sold to the above-mentioned homebuyers / Petitioners herein, the Company has not been able to complete its projects and hand over the delivery of the sold units in terms of its promises / commitments, with delay in some cases running over 4 years.

That in this regard, through the estimate available on the website? of the Company, www.unitechgroup.com.it appears that the Company has an undelivered 35 million sq feet yet to be delivered to its various homebuyers / customers, who have booked units from 2006-07 to 2012.

knowledge that the Company is not in the position to constructo their projects, and are embroiled in heavy litigation on account of its failure to deliver the residential flats / units to various homebuyers / unsecured creditors within the committed time frame. Resultantly, a large number of home buyers who have rushed to various courts and forums including the District Consumer Courts, State Commissions and various benches of the National Consumer DisputesRedressal Commission ("NCDRC"), as evident from their respective websites, wherein after continuously pursuing litigation against the Company involving tremendous time and legal expenditure, some homebuyers have been awarded with decrees in their favour. That at this pace, it appears that the Company will not have enough liquidity to offer refunds to all such consumers as the real

estate assets may not be immediately encashable thus leaving the Petitioners herein amongst various other homebuyers without any substantial remedy at the cost of few of those seeking refunds.

These home buyers are thus extremely apprehensive that if the company goes into winding up and/or a liquidation at the instance of homebuyers / unsecured creditors, in which case the said unsecured creditors will be only left to pursue the highly expensive and long drawn litigation against the Company, with the result that their dream of getting their residential flat will never materialize. Further, the banks and financial institutions who have given huge loans to the Company by taking the land under the proposed development proposed as security for the loan, will also be attached and auctioned to realize the value for re-payment to these banks / financial institutions in the event of the liquidation, thus leaving the Petitioners herein alongwith other homebuyers without any substantial remedy.

In the given circumstances, the homebuyers realize that due to the present nature of the economy, large numbers of developers are failing to fulfill their promises and provide delivery of the flats. The home buyers are concerned that because of a large number of home buyers are now rushing to various courts and forums including district and state consumer forums including the national consumer dispute redressal commission, wherein after continuously pursuing litigation against the Company involving tremendous time and legal expenditure, some homebuyers have been awarded with decrees in their favour. That a small fraction of such homebuyers who have already got decrees in their favour will also not be able to realize anything as the decrees awarded in their favour may remain as only a mere paper decree with not

scope of execution or enforceability thereof whatsoever, thus leaving all the homebuyers, with or without decrees, without any remedy whatsoever once the Company goes into liquidation. The foregoing is particularly in view of the audited financial statements and accounts of the Company, a perusal whereof makes it amply clear that the chances of all homebuyers or even less than 10% thereof may also not get their entire principal amount back alongwith 10% to 18% interest for the period of delay.

Whereas the homebuyers to the present Scheme are keen to get the delivery and possession of their respective dream homes rather than getting back a refund at the cost of other homebuyers. Thus, the home buyers / unsecured creditors are proposing the present scheme of arrangement and compromise with the Company, which if approved by the entire class of home buyers category of unsecured creditors / investors of the company, will ensure that the company gains enough time to complete the development of its projects, and eventually handover the residential units to the Homebuyers. That on the basis of the multiple projects executed by Unitech Ltd and the good will enjoyed by it in the real estate market as provided at Annexure -A, numerous prospective buyers approached the Company in the course of their ordinary business and in pursuance thereof, entered into various Agreements to Sell / Buyer Agreements for the purchase of residential units / flats, which were either in the partially developed or under-developed phase undertaken by Unitech Ltd, details whereof are provided hereinafter.

Background of the Company

C. <u>Difficulties / Issues being faced in the completion / delivery of the projects undertaken / sold by the Company</u>

Pursuant to the sale of various units / flats by the Company in the residential projects undertaken by them, *inter-alia* including the units sold to the above-mentioned homebuyers, the Company has not been able to complete its projects and hand over the delivery of the sold units in terms of its commitments with delay in some cases running over 4 years, which has resulted in the Company being embroiled in heavy litigations related to its incomplete projects.

developed or partially developed with diminishing liquidity, on account of various factors including *inter-alia* the financial crunch faced by the Company or on account of excessive piling up of inventory alongside continuing overheads for upkeep, security and day to day repair and maintenance faced by the Company, political uncertainty; increasing litigation costs; land issues in Uttar Pradesh, et al.

As a result thereof, from the website of the Company, it appears that as of date, there are variousheld up / stopped projects of the Company, a non-exhaustive list whereof is provided as Annexure-D to this Scheme.

In the given circumstances, it is realised that due to the present nature of the economy, large number of developers are failing to fulfil their promises and provide delivery of the flats: The home buyers are concerned that because of a large number of home buyers who are now rushing to various courts and forums including session and district consumer forum including the National Consumer Dispute Redressal Commission, wherein after continuously pursuing litigation against the Company involving tremendous time and legal expenditure, some homebuyers have been awarded with decrees in their favour. Further, it is well within the public domain and knowledge that the Company is not in the position to construct their projects, and are embroiled in heavy litigation on account of its failure to deliver the residential flats / units to various homebuyers / unsecured creditors within the committed time frame. Resultantly, a large number of home buyers who have rushed to various courts and forums including the District Consumer Court, State Commission and the National Consumer DisputesRedressal Commission ("NCDRC"), as evident from their respective websites, wherein after continuously

pursuing litigation against the Company involving tremendous time and legal expenditure, some homebuyers have been awarded with decrees in their favour. That at this pace, it appears that the Company will not have enough liquidity to offer refunds to all such consumers as the real estate assets may not be immediately encashable—thus leaving the Petitioners herein amongst various other homebuyers without any substantial remedy at the cost of few of those seeking refunds.

D. <u>Current Viability Status of the Company and need for</u> Restructuring

Through the estimate available on the website of the Company, www.unitechgroup.com, it appears that the Company has an undelivered 35 million sqft yet to be delivered to various customers who booked units from 2006-07 to 2012. It is however a matter now known to everyone coupled with various news clippings that the Company is not in the position to construct the projects with the result that the day is not far when all the refunds sought by the consumers may result in the company pushed into liquidation, while homebuyers who have not gone into litigation will suffer the most. As per Annual Report of the Company for the year 2014-15 -

"Your Company delivered 3.16 million sq. ft. of completed area during the year and handing over is in progress in 41 projects across various regions of the country. As at 31st March, 2015, a total of 37.49 million sq.ft. area is under development. In order to efficiently execute the much higher scale of projects across markets, the Company is substantially upgrading its operations. During the year under review, the Company continued to focus on strengthening the back end

infrastructure of the construction division to improve the quality and output of construction work".

Thus, from the financial indebtedness of the Company and the heavy litigation which it is embroiled in, it appears that it may become mounting issue whereby, the Company rather than spending its resources and time on completing the projects and ensuring delivery, would only be focusing on defending itself before different courts and forums, as a result of which only the customers who succeed in obtaining decrees against the Company may get some relief, while all the others who want their homes to be constructed will be solely left to pursue the path of litigation and will be left in lurch without any remedy or recourse left for them, with the only option remaining to fight a long drawn legal battle against the Company. The paradox is that all the money, which should go into construction, is going into refund. In light of the above, the present Scheme is proposed to find a practical solution to tide over the persisting issues faced by all the creditors / unit holders / invertors and the Company.

A non-exhaustive list of pending litigation against the Company is provided at Annexure - B.

The present Scheme therefore proposesthat sincethese homebuyers category of unsecured creditors are extremely apprehensive that if such refunds continue, there is all likelihood that Company might be sent into winding up at the instance of homebuyers / unsecured creditors despite in which case the said unsecured creditors will be only left to pursue the highly expensive and more than that a long drawn litigation against the Company, with the result that their dream of getting their residential flat will never materialize. Further, the banks and financial institutions who have given huge loans to the Company by taking the land under the proposed development

proposed as security for the loan, will also be attached and auctioned to realize the value for re-payment to these banks / financial institutions in the event of the such extreme action of winding up against the Company, thus leaving these homebuyers category of unsecured creditors alongwith other homebuyers without any substantial remedy.

In this regard, it is submitted that a small fraction of homebuyers who have already got decrees in their favour will also not be able to realize anything as the decrees awarded in their favour may remain as only a mere paper decree with no scope of execution or enforceability thereof whatsoever, thus leaving all the homebuyers, with or without decrees, without any remedy anatsoever once the Company goes into liquidation. The foregoing is particularly in view of the audited financial statements and accounts of the Company, a perusal whereof makes it amply clear that the chances of all homebuyers or even less than 10% thereof may also not get their entire principal amount back alongwith 10% to 18% interest for the period of delay. In some of the cases where property prices have not increased as much as 18% p.a, customers have made it a good return mechanism by opting for refund, sadly at the cost of other home buyers who desperately need their homes.

In the given scenario, it is felt that if the company goes into winding up and/or a liquidation at the instance of large financial institutions, the said homebuyers / unsecured creditors will be only left into long drawn litigation and their dream getting their residential flat and their hope will never materialise. Further, the panks and financial institutions who have given loans to the Company by taking as security for the loan, the land under the proposed development proposed, wherein in the event of the liquidation, the said underlying security will be attached and auctioned to realise the value for re-

or KARNIKA MARBLE TRADERS

payment to these banks / financial institutions, thus leaving the homebuyers without any substantial remedy.

Whereas though the Company is facing tremendous difficulties in completing its Projects, however considering the potential of the Company and its past record, ability and skill to deliver the projects, it appears to be in the best interest of the homebuyers / investors, employees and the Company that the proposed scheme of the reschedulment and/or restructuring should be considered and approved in order to enable the Company to deliver the commercial units to the existing purchasers, unit holders, instead of wasting precious time and resources in pursuing any long-drawn litigation against the Company, which shall not sub serve any purpose whatsoever either to the existing stakeholders or the Company.

Thus in view of the prevailing circumstances, the homebuyers / unsecured creditors to the present Scheme are proposing the present scheme of arrangement and compromise with the Company, which if approved by the entire class of home buyers creditors / investors of the company, will ensure that the company gains enough time to complete the development of its projects, and eventually handover the residential units to the Homebuyers.

Ε. Turnaround Strategy

1. The Opportunity Ahead
